## Description:

Conservative historian Paul Johnson wears his ideology proudly on his sleeve in this often ruthless dissection of the thinkers and artists who (in his view) have shaped modern Western culture, having replaced some 200 years ago "the old clerisy as the guides and mentors of mankind." Taking on the likes of Karl Marx, Bertrand Russell, Lillian Hellman, and Noam Chomsky in turn, Johnson examines one idol after another and finds them all to have feet of clay. In his account, for instance, Ernest Hemingway emerges as an artistic hero who labored endlessly to forge a literary style unmistakably his own, but also as a deeply flawed man whose concern for the perfect phrase did not carry over to a concern for the women who loved him. Gossipy and sharply opinionated, Johnson's essay in cultural history spares no one.

Does it really matter that Henrik Ibsen was vain and arrogant, that Jean-Paul Sartre was incontinent? In Johnson's view, it does: these all-too-human foibles disqualify them, and other thinkers, from presuming to criticize the shortcomings of society. "Beware intellectuals," he concludes (though, given the subjects of his book, it seems he means intellectuals only of the left). "Not only should they be kept well away from the levers of power, they should also be objects of particular suspicion when they seek to offer collective advice." Whether one agrees or not, Johnson's profiles are frequently amusing and illuminating, as when he suggests that the only proletarian Karl Marx ever knew in person was the poor maid who worked for him for decades and was never paid, except in room and board, for her labors. --*Gregory McNamee*

**From Publishers Weekly** Johnson here sets his sights on Marx, Sartre, Shelley, Tolstoy, Brecht, Ibsen and others. "Written from a conservative standpoint, these pummeling profiles of illustrious intellectuals are caustic, skewed, thought-provoking and thoroughly engaging," maintained PW.

Paul Johnson. A fascinating portrait of the minds that have shaped the modern world. In an intriguing series of case studies, Rousseau, Shelley, Marx, Ibsen, Tolstoy, Hemingway, Bertrand Russell, Brecht, Sartre, Edmund Wilson, Victor Gollancz, Lillian Hellman, Cyril Connolly, Norman Mailer, James Baldwin, Kenneth Tynan, and Noam Chomsky, among others, are revealed as intellectuals both brilliant and contradictory, magnetic and dangerous. Paul Johnson's *Intellectuals* lays bare the human frailties of these beneficent intellectuals - ranging from Jean-Jacque Rousseau to Leo Tolstoy, to Henrik Ibsen to Ernest Hemingway, and to Noam Chomsky - and invites us to question the duplicity of these intellectuals that contradicts what they preached for the sake of humanity. Intellectuals have traditionally proclaimed themselves to be liberals, torch-bearers of fraternity, equality, liberty since they became new potent oracles of societies dictating modes of life and modus operandi of political, social, and cultural systems. He begins with Jean-Jacques Rousseau and continues with such diverse individuals as Percy Byshe Shelley, Karl Marx, Leo Tolstoy, Bertrand Russell, Jean-Paul Sartre, and others. *From Hegel to Marx: Studies in the Intellectual Development of Karl Marx* (A Morningside Book). 172 Pages·1994·108.38 MB·633 Downloads·New! of Karl Marx issued from the mystical and conservative intellectual system of G.W.F.
