April is the fourth month of the year in the Gregorian calendar, the fifth in the early Julian, the first of four months to have a length of 30 days, and the second of five months to have a length of less than 31 days. April is commonly associated with the season of autumn in parts of the Southern Hemisphere, and spring in parts of the Northern Hemisphere, where it is the seasonal equivalent to October in the Southern Hemisphere and vice versa. The April 1st birthday personality traits seen in you is that your restlessness encourages your impatience and argumentative personality. Those born on this day are opinionated as well. Because you get bored easily, you prefer the company of a few friends but still enjoy your peace and quiet. This may sound as though Aries are negative influences but you just have your way of doing things. Deep down, you are full of positive qualities and vigor. Those Arians born on a zodiac birthday April 1 are encouraged to be more patient and tactful. On the surface, you may seem to rough around the edges but inside, you are a gentle and passionate soul. You love making love to someone that wants the same thing as you do. First same-sex couples to *LEGALLY* marry (Netherlands- April 1, 2001). 4mo ... clayagds99. ... r/gaybros.
