Development of football in Kolhapur district: an exploratory study. Synopsis. Submitted to the. Shri Jagdish Prasad Jhabarmal Tibrewala University for the award of degree. Doctorate of Philosophy. Physical Education. B.A.M.S. Amar Dinkarrao Sasane Registration. No. JJT/20114354. Rapid growth of construction activity, to meet the modern day requirements of increasing population and housing and infrastructure development needs of the society, has immensely boosted the demand for building materials in Kolhapur district. Stone quarrying continues to play a major role in this process. However, the activity has caused serious environmental degradation and socio-economic conflicts in the study area. The major environmental and socio-economic problems related to quarrying revealed during this study include, landscape alteration, hill cutting affecting local biodiversity, generation of unproductive wastelands, dust pollution, noise pollution, illegal stone extraction, accidents and in some areas lowering of groundwater table. The EU promotes vibrant rural areas. Together with market measures and income support, rural development measures are at the heart of the CAP. Ensuring the sustainable management of natural resources, and climate action; achieving a balanced territorial development of rural economies and communities including the creation and maintenance of employment. Page Contents. CAP support for rural development.
