Trees of our Garden City: Enhancing Singapore's Liveability. Trees play an important role in our Garden City. Apart from softening and beautifying our cityscape, they provide numerous environmental benefits. Not only do they offer a welcome respite from the tropical heat and glare, they help alleviate the heat island effect by removing excess carbon and air pollutants. They also prevent soil erosion and reduce storm water run-off. How to get to Singapore Botanic Gardens By Foot: Entrance to the Gardens is easy through the Gardens' major entrances: Tanglin Gate, Nassim Gate and Cluny Park Gate By Car: Car parking facilities are available at the Botany Centre, Visitor Centre, Bukit Timah Core, Jacob Ballas Children's Garden and along Tyersall Avenue. This book is not yet featured on Listopia. As expected for a book from the authorities, it is heavy on self congratulation and how Singapore is ahead of so many countries in retaining and enhancing 'greenery', never mind that natural old growth forests were replaced by artificial parks and manicured gardens over the decades. ...more. Majestic mature trees are the natural heritage of Singapore and serve as important green landmarks of our Tropical Garden City. They help to create a sense of permanence and identity to the place we live. It takes decades and in some cases, more than hundreds of years for these trees to mature gracefully in our landscape. As Singapore progresses, there is a danger of losing these mature trees. In view of this concern, the Heritage Trees Scheme was announced on 17 Aug 2001 with the objectives to conserve and to educate the community on the importance of protecting our mature trees. In support of this initiative, a Heritage Trees Fund was established by The Hongkong and Shanghai Banking Corporation Limited (HSBC), with an initial donation of \$125,000. Trees cool the city and the streets: Trees can cool Singapore by shading our homes and streets and releasing water vapor into the air through their leaves. Trees provide habitat for wildlife: Trees provide great urban homes for birds, bees, monkeys and squirrels. A recreation of the 200 year old Tembusu tree in the Singapore Botanic Gardens is also featured in Singapore's SG\$5 banknote! Fun Fact: The extremely hard wood from the Tembusu Tree can last over 100 years and is used to make chopping boards. Here's a quick guide to 10 types of trees that you can see while you're out on a run in Singapore. They are Rain Tree, Angsana, Yellow Flame, Senegal Mahogany, Broad-leafed Mahogany, Tembusu, Sea Apple, Saga, Trumpet Tree and Sea Almond.
